

# Māori & Public Housing Renewable Energy Fund

Projects for Māori housing: funding round 1

May 2021

Organisation	Project name	Description	Funding
Te Uri o Hau Tangata Development Ltd	Tongiterōria Marae Kaumātua Flats Solar Energy	Installing solar photovoltaic (PV) generation and battery storage for homes of kaumātua. <i>Tongiterōria, Northland</i>	\$50,000
Hāpai Housing Limited Partnership	Hāpai Housing Renewable Energy Project	Adding solar PV and centralised solar-tied hot water technology to new iwi-owned rental housing development in <i>Glen Innes, Auckland</i>	\$150,000
Kokohinau Papakāinga Trust	Kokohinau Papākāinga Project	Installing solar PV, batteries and a shared electricity grid for seven marae-based homes including homes of kaumātua and disadvantaged whānau. <i>Te Teko, Bay of Plenty</i>	\$300,000
Tuhua Trust	Tuhua (Mayor Island) Solar Power Project	Installing solar PV and batteries to replace diesel generators that power houses for the island's permanent kaitiaki. <i>Mayor Island, Bay of Plenty</i>	\$100,000
Manaaki Energy	Manaaki Energy: Rotorua Home PV Installs Manaaki Energy: Hawke's Bay Home PV Installs	Installing solar PV and batteries for high-needs housing in Hastings and Rotorua, identified in collaboration with local iwi. <i>Rotorua and Hastings</i>	\$400,000
Te Arawa Whānau Ora Charitable Trust	Whiti Te Rā: Supporting whānau to be empowered through solar energy	Upgrading housing with solar PV as the homes proceed through a repairs and energy efficiency programme, focusing on homes with kaumātua and whānau with tamariki. <i>Selected whāre within Rotorua</i>	\$150,000
The Lines Company/Maniapoto Māori Trust Board	Maniapoto Marae Solar Solutions	Installing larger-scale solar generation on a marae and shared through peer-to-peer trading to improve energy outcomes for Māori. <i>Ngāti Maniapoto rohe, King Country</i>	\$170,000

Organisation	Project name	Description	Funding
Tūhoe Charitable Trust	Scoping renewable energy for Tūhoe hapū eco-villages	Undertaking a comprehensive study looking at feasibility options for development of renewable energy as part of the Tūhoe hapū eco-villages redevelopment programme. <i>Tūhoe rohe, Te Urewera</i>	\$75,000
Te Whanau a Maruhaeremuri Hapu Trust	Tamanui Te Ra Hei Oranga Mo Maru Renewable Energy Project	Installing solar PV and battery systems for housing on remote papakāinga relying on generators. <i>Apanui region, East Cape</i>	\$140,000
Parihaka Papakāinga Trust	Hiringa Nō Runga, Hiringa Mō Raro	Installing and testing a community micro-grid, which includes solar and battery storage system distributing energy to whānau homes on the papakāinga and peer to peer energy sharing to homes further afield. <i>Parihaka, Taranaki</i>	\$400,000
Waingākau Housing Development Ltd/Te Taiwhenua o Heretaunga	Waingākau Renewable Energy Project	Retrofitting solar panels onto existing homes and integrating them into new builds at the Waingākau housing development, with a focus on prioritising intergenerational whānau Māori buying their first homes. <i>Flaxmere, Hastings, Hawke's Bay</i>	\$150,000
Waiohiki Community Charitable Trust	Solar Oranga Project	Retrofitting solar panels onto social housing for the benefit of low-income whānau. <i>Waiohiki, Hawke's Bay</i>	\$150,000
Reureu Kotahitanga	Kia Whitingia	Installing solar PV generation on marae and some homes with large-scale battery storage and an energy sharing platform to provide electricity to nearby homes. <i>Halcombe, Manawatū</i>	\$400,000
Te Rūnanga o Ngāi Tahu	Te Rūnanga o Ngāi Tahu Shared Equity Housing Programme	Installing solar PV generation and batteries on homes that are tenanted by kaumātua and whānau with tamariki as part of Ngāi Tahu programmes and initiatives. <i>Ngāi Tahu Tākiwa</i>	\$150,000
