

Introduction

Name:

Jane Little

Email:

janelittle1956@gmail.com

Business name or organisation (if applicable):

Position title (if applicable):

Is this an individual submission or on behalf of a group or organisation?

Individual

Please indicate which group you most identify with or are involved in?

General public

Please specify the group that you most identify with

Please indicate which type of group your submission represents

Please specify the group or organisation that your submission is on behalf of.

Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

Why?

There should be limited or no petroleum sector in New Zealand.

What is your vision for the minerals and petroleum sector in New Zealand?

We need to focus on the rapid phase-out of fossil fuel extraction, that means no more permit extensions and a halt to deep-sea drilling and fracking. This needs to include a just transition for the working people and communities whose jobs currently rely on fossil fuel extraction. The Government needs to support working people and unions to train for new careers in clean industries.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

Keeping the extraction and minerals to a minimum made possible by a circular economy that reuses and recycles all waste. Research into carbon based plastics that degrade.

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Strongly disagree

Why?

It is irresponsible to continue to extract fossil fuels. We need to focus on the rapid phase-out of fossil fuel extraction.

Objective for a sector that: “Is productive and innovative”.

Strongly disagree

Why?

A really productive and innovative sector would build a circular economy that focuses on recycling and utilising waste resources before new mining for materials for the cleantech economy.

Objective for a sector that: “Is effectively regulated”.

Strongly disagree

Why?

We should be moving quickly to banning all fossil fuel extraction.

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

We need to focus on the rapid phase-out of fossil fuel extraction, that means no more permit extensions and a halt to deep-sea drilling and fracking

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

This principle is not upheld by this strategy. It is not possible to continue to extract fossil fuels and comply with this principal.

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

Any extraction of minerals should only happen with greater input by iwi and hapu and with minimal environmental impact.

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

We need to focus on the rapid phase-out of fossil fuel extraction, that means no more permit extensions and a halt to deep-sea drilling and fracking immediately.

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

As noted above we need to focus on the rapid phase-out of fossil fuel extraction, that means no more permit extensions and a halt to deep-sea drilling and fracking

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Neither agree nor disagree

Why?

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Neither agree nor disagree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

We need to focus on the rapid phase-out of fossil fuel extraction.

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Strongly agree

Why?

We need to focus on the rapid phase-out of fossil fuel extraction.

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Strongly agree

Why?

Principle: Strive to implement industry best practice in operations.

Neither agree nor disagree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Neither agree nor disagree

Why?

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Neither agree nor disagree

Why?

Include a just transition for the working people and communities whose jobs currently rely on fossil fuel extraction. The Government needs to support working people and unions to train for new careers in clean industries

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly agree

Why?

We need a strategy for the 21st century that recognizes we are experiencing a climate emergency and rapidly phases out fossil fuel extraction.

What future actions would you like us to consider under this Action Area?

Action Area: Securing affordable resources to meet our minerals and energy needs

Strongly agree

Why?

We need to build a circular economy that focuses on recycling and utilising waste resources before new mining for materials for the cleantech economy.

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Strongly agree

Why?

Our obligations under the Treaty of Waitangi

What future actions would you like us to consider under this Action Area?

Any extraction of minerals should only happen with greater input by iwi and hapu and with minimal environmental impact.

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Include a just transition for the working people and communities whose jobs currently rely on fossil fuel extraction. The Government needs to support working people and unions to train for new careers in clean industries

Action Area: Improving industry compliance

Neither agree nor disagree

Why?

We need to focus on the rapid phase-out of fossil fuel extraction, that means no more permit extensions and a halt to deep-sea drilling and fracking.

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Neither agree nor disagree

Why?

We need to build a circular economy that focuses on recycling and utilising waste resources before new mining for materials for the cleantech economy.

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

Yes

Can we include your email address?

Yes

Can we include your business name or organisation?

No

Can we include your position title?

No

Can we include the group you most identify with (if submitting as an individual)?

Yes

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:
