### Vision

### Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly agree

### Why?

Respect for other people and for our environment

### What is your vision for the minerals and petroleum sector in New Zealand?

That regulations will be put in place to keep the sector accountable to the vision

### How can New Zealand sustainably derive value from its petroleum and minerals resources?

These are finite resources that won't lose value if managed carefully

### Objectives for the minerals and petroleum sector

### Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly agree

### Why?

There will have to be changes to delivery of these resources but this will bring economic benefits for NZ in the long term.

### Objective for a sector that: "Is productive and innovative".

Agree

### Why?

Innovation is the key look at the progress made on the delivery of solar energy.

### Objective for a sector that: "Is effectively regulated".

Agree

**Why?**

Regulation has to be effective but the vision can't be attained without regulation

**Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?**

I think there should be regular reviews by Govt. on the companies in this sector because they may have other priorities e.g profit and highly paid management

**Guiding principles**

**Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.**

Disagree

**Why?**

I think profit driven goals are still prevalent in these industries

**Principle: Māori cultural interests are understood and respected.**

Neither agree nor disagree

**Why?**

Probably not as cultural interests vary

**Principle: Support the transition to a carbon neutral economy by 2050.**

Agree

**Why?**

Not to do so is highly irresponsible

**Principle: The impact on people, communities and regions are managed in a just and inclusive way.**

Disagree

**Why?**

Well if they were we wouldn't be in the mess we are in e.g dirty water ways

**Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.**

Strongly agree

**Why?**

Necessary to provide a healthy environment

**Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.**

**Why?**

**Do you agree or disagree with each of the following principles for the Crown?**

**Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.**

Agree

**Why?**

Partnership is essential as a Treaty partner

**Principle: The Crown receives a fair financial return for its minerals and petroleum.**

Agree

**Why?**

This is part of the vision.

**Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.**

Strongly agree

**Why?**

Only way to go

**Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.**

Disagree

**Why?**

Existing permits need to be reviewed and changed if necessary to meet the vision

**Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.**

Agree

**Why?**

Good management practice

**Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.**

Agree

**Why?**

Include everyone to get best outcome

**Do you agree or disagree with each of the following principles for Industry?**

**Principle: Pursue continuous improvements in health and safety.**

Strongly agree

**Why?**

To make the vision a reality

**Principle: Strive to implement industry best practice in operations.**

Strongly agree

**Why?**

AS above

**Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.**

Agree

**Why?**

Of course

**Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.**

Agree

**Why?**

Of course

**Are there any other principles you would like us to consider in the strategy?**

Just organise the ones you have listed in this survey

**Action areas intro**

**Action Area: Modernising the Crown Minerals Act**

Agree

**Why?**

Review is part of good legislation process

**What future actions would you like us to consider under this Action Area?**

Tighten all the loop holes to meet vision

**Action Area: Securing affordable resources to meet our minerals and energy needs**

Agree

**Why?**

Secure resources that are required to meet vision
