

## PERMITTING DECISION SUMMARY

## **CE-SAT-IB**

### **Canon Electronics Inc**

- 1. Canon Electronics Inc. (CEI)n is a Japanese corporation which specialises in manufacturing imaging and optical products such as photocopiers, printers and cameras. Canon's first payload, CE-SAT-I, was launched in June 2017.
- 2. CE-SAT-IB's mission is a technology demonstration of Canon's Earth imagery technology.
- 3. CE-SAT-IB carries two on board cameras with high resolution and wide angle. The payload will take images of Earth to test this mass production model against the original CE-SAT-IB.
- Payloads are permitted in line with the <u>Outer Space and High-altitude Activities Act 2017</u> (OSHAA) and the <u>Outer Space and High-altitude Activities (Licences and Permits) Regulations</u> <u>2017</u>.
- 5. Each payload has been approved by the Minister for Economic Development, on advice from officials across agencies. When approving payloads, the Minister needs to be satisfied that:
  - a. The applicant has taken and will continue to take all reasonable steps to safely manage the operation of the payload;
  - b. The proposed operation of the payload is consistent with New Zealand's international obligations; and
  - c. The applicant has an orbital debris mitigation plan that meets prescribed requirements.
  - d. Despite being satisfied of these matters, the Minister may nevertheless decline a permit if he is not satisfied that the proposed operation of the payload is in New Zealand's national interest.
