

Dear sir/madam,

- I have done Level 8 here in NZ and it's not an easy task to get a job within a year. I am working as support worker .
- My husband he is chef we believed that he can extend my visa and my son's visa but according to new rules dependent can't get working right which is totally unfair we can't send our son back to Indian he is just 3 years old.
- Why it has been fixed \$50000 for a year for skilled migrants as everyone knows it is impossible it depends on the pay rate because the pay rate is \$15.75 no one wants to pay more than that this rule should not be implemented it's going to affect number of hardworking people?
- Please provide work visas to the dependent. Please save many lives.
