Dear Sir

9(2)(a)

9(2)(a) as a Halal Slaughter Men and currently there are all together 14 halal slaughter men in our factory and every one is from overseas no local people!!!!!!!

We have forgotten our past and started off with our new lifestyle and we very well happy but suddenly the Immigration laws can destroy our future as we have been working here like hell and paying a hell lots of amount of money as Tax (PAYE) but still after generating a hell lot to the New Zealand's Economy at last we been kicked out as if there isn't any recognition from the government and immigration from which the Meat Industries and Halal Slaughter men generated billions of dollars to the new Zealand economy since years passed but still no recognition for the Halal category and no future.

We are not like other seasonal workers we have been here with our family from a long time and we are really getting well and it's like home now!!!!!! I simply don't want to go back because I don't have nothing left for me back there!!!!!!

We made a home here and we are very happy and well settled amongst the kiwis. Even we don't get any benefits out of our huge amounts of taxation we paid for these many years!!!!!!

I would like to conclude just a one off all the Halal men should be given PR!!!!!!!  
Hope you guys will make the right decision!!!!!!!

We have build our dreamhouse Please don't snatch our homes from us!!!!!!! Please please do make the right decision!!!!!!!

Thanks
