Consultation: Recognition of WaterMark Australia certified products

The Ministry of Business, Innovation and Employment (MBIE) would like your feedback on the proposed recognition of specified WaterMark certified plumbing and drainage products.

Approved Products Certified Overseas are part of three pathways introduced by [the Building Amendment Act 2025](#). These pathways aim to reduce barriers for using high-quality building products imported from overseas and provide more choices of Building Code compliant products or methods for designers, specifiers and consumers.

Under this new pathway, MBIE will evaluate building products or methods certified under an overseas product certification scheme for possible recognition by the Chief Executive, provided they meet the criteria set out in the Building (Product Certification) Regulations 2025.

Recognised products will be deemed-to-comply with the Building Code and must be accepted by building consent authorities (in a similar way to CodeMark certified products).

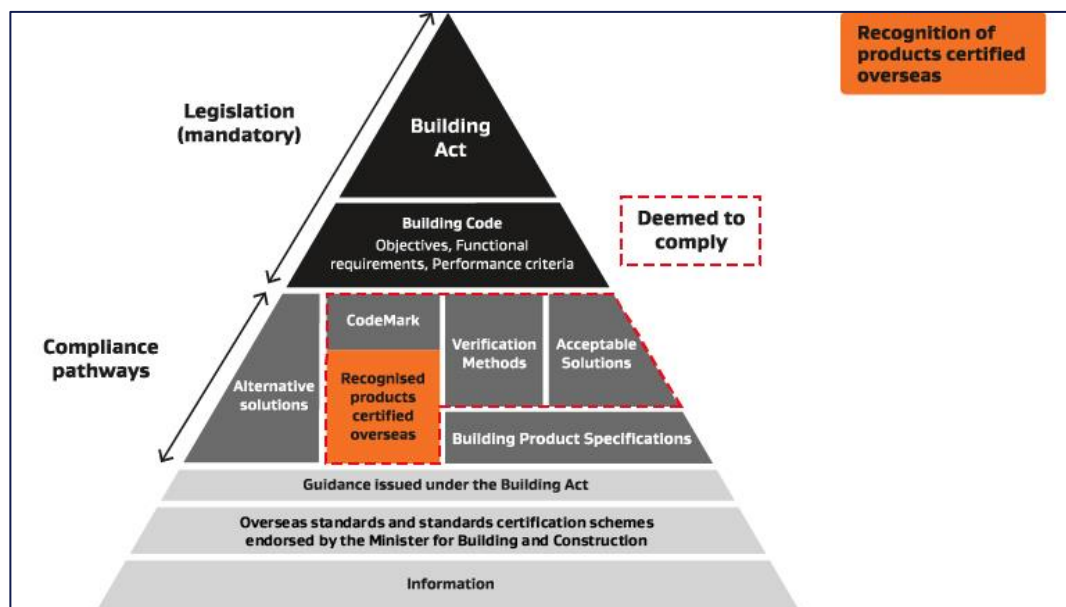

Figure 1: Where Approved Products fit in the building regulatory system

How does the recognition process for overseas certified products work?

The evaluation of overseas certified products for recognition will include:

- An evaluation of the product certification scheme to ensure it is accredited as meeting appropriate standards by an accreditation body and has robust processes for:
 - evaluating, certifying and monitoring building products or methods
 - ensuring certifiers act impartially and independently from product manufacturers/suppliers
 - ensuring staff carry out their roles with integrity and professionalism.

- Determining that product certificates and any associated information are accessible and contain enough technical detail so Aotearoa New Zealand users can understand how the product or method will perform in relation to its intended use.
- Ensuring there is no warning or ban in place for the product or method (either in NZ or overseas), and the certification body has not had its accreditation suspended or revoked under section 264 of the Building Act (the CodeMark scheme).
- Providing sufficient evidence that the product or method would comply with the Building Code when used as intended (including any conditions or limitations of recognition).

Evaluation of WaterMark certified products

MBIE is taking a measured approach in implementing this new deemed-to-comply pathway. As such, WaterMark certified products have been prioritised as the first to be evaluated for possible recognition. This is because WaterMark is referred to in New Zealand Building Code compliance documents for plumbing and drainage products, and many products and their materials are tested to joint Australian and New Zealand Standards.

The first phase of evaluation has been completed on:

- products certified to the following standards:

	Standard	Standard Title
1.	AS/NZS 1260:2017	PVC-U pipes for drain, waste and vent
2.	AS/NZS 1477:2017	PVC pressure pipes
3.	AS/NZS 2280:2020	Ductile iron pipes and fittings
4.	AS/NZS 2492:2007	Cross-linked polyethylene (PE-X) pipes for pressure applications
5.	AS/NZS 2537.2:2011	Mechanical jointing fittings for PE-X pipes
6.	AS/NZS 2638.2:2011	Precast concrete pipes
7.	AS/NZS 2642.2:2008	Polybutylene (PB) plumbing pipe systems - Polybutylene (PB) pipe for hot and cold water applications
8.	AS/NZS 2642.3:2008	Polybutylene (PB) plumbing pipe systems - Mechanical jointing fittings for use with polybutylene (PB) pipes for hot and cold water applications
9.	AS/NZS 2845.1:2022	Water supply – Backflow prevention devices, Part 1: Materials, design and performance requirements
10.	AS 3497:2021	Drinking water treatment units - Plumbing requirements
11.	DR AS/NZS 3499:2022	Water supply – Flexible hose assemblies
12.	AS/NZS 3662:2005	Performance of showers for bathing
13.	AS 3718:2021	Water supply - Tap ware
14.	AS/NZS 4129:2020	Fittings for polyethylene (PE) pipes for pressure applications
15.	AS/NZS 4130:2018	Polyethylene (PE) pipes for pressure applications
16.	AS/NZS 4327:1995	Metal-banded flexible couplings for low-pressure applications
17.	AS/NZS 4401:2006	Plastics piping systems for soil and waste discharge (low and high temperature) inside buildings - Polyethylene (PE)
18.	AS/NZS 4765:2017	Modified PVC (PVC-M) pipes for pressure applications
19.	AS/NZS 4766:2020	Rotationally moulded buried, partially buried and non-buried storage tanks for water and chemicals
20.	AS/NZS 4936:2005	Air admittance valves (AAVs) for use in sanitary plumbing and drainage systems
21.	AS/NZS 5065:2005	Polyethylene and polypropylene pipes and fittings for drainage and sewerage applications
22.	AS/NZS 7671:2010	Plastics piping systems for soil and waste discharge (low and high temperature) inside buildings - Polypropylene (PP)

Recognition notices for WaterMark certified products

Following evaluation, if the overseas certified products meet all criteria, a recognition notice for those products will be issued. This notice serves as evidence of the product's compliance with the Building Code clauses specified in the notice.

To make recognition notices user friendly for the sector, we are proposing to incorporate the following information into the notices that will be issued for WaterMark products:

1. WaterMark product certificate numbers for each recognised product. This is because the product certificates identify the building products, include relevant technical information and often relate to a number of products and models.
2. Standards that the recognised products have been certified against. This is to provide users with the basis for MBIE's evaluation that the products meet the requirements of the relevant clauses of the Building Code.
3. WaterMark Schedule of Products. The WaterMark Schedule of Products contains a list of plumbing and drainage products that are included in the WaterMark certification scheme. It also lists the specification to which the products can be certified. This is because the Schedule of Products specifies the certified intended use of each product category.

WaterMark Schedule of Products: [Schedule of Products | WaterMark](#)

A proposed recognition notice for WaterMark products is attached to this document as the **Appendix**.

What are we seeking feedback on?

MBIE is seeking feedback on:

1. Do you think the WaterMark certified products in the tables below are suitable for use in New Zealand?
2. Do the standards cited show how WaterMark certified products link to the Building Code?
3. Does the WaterMark Schedule of Products explain how each WaterMark certified product should be used?

The tables below will be in one of two formats.

There is an additional section for products who have more 'conditions and limitations' for use to be suitable in the New Zealand context, beyond their certified intended use.

How to provide feedback

To make a submission on the proposed recognition of WaterMark certified products, complete either:

- the following online submission form: <https://www.research.net/r/recognition-of-watermark-products> or
- the following feedback form: <https://www.mbie.govt.nz/dmsdocument/31074-feedback-form-for-recognition-of-watermark-products-september-2025> and send it to building@mbie.govt.nz

Please provide your feedback by **5pm, Monday, 8th September 2025**.

What happens next?

Following analysis of feedback from this consultation, MBIE expects to finalise the recognition of the first WaterMark products by the end of September 2025.

Further information on subsequent recognitions of WaterMark products will be provided by MBIE.

Queries

If you have any questions in relation to the recognition of overseas certified products, including this consultation, please contact us at MBIE: overseasproducts@mbie.govt.nz

Schedule 1

List of WaterMark certificates with recognised building products

Building (Product Recognition WaterMark Tapware) Notice 2025: RN-10009

Title

This is the Building (Product Recognition WaterMark Tapware) Notice 2025: RN-10009.

Commencement

This notice comes into force on DAY MONTH YEAR.

Interpretation

In this notice of recognition, unless the context otherwise requires,—

Act means the Building Act 2004

Building Code means the New Zealand Building Code, which is Schedule 1 of the Building Regulations 1992, made under section 400 of the Act

Certified intended use means the intended use of the building product certified by the certification body and as described in either the product certificate, building product's manual, or other relevant materials

Conformity assessment bodies (CABs) mean an organisation that performs activities to demonstrate that a product, process, system, person, or body meets specified requirements.

Product type means a plumbing or drainage product that presents a public risk requiring mitigation, as determined by the Protocol for the Assessment of Risks of Plumbing Product under the WaterMark scheme. It is regulated under the Plumbing Code of Australia and listed in the WaterMark Schedule of Products.

Recognition of the following certified WaterMark tapware products

Under section 272HA of the Act, I recognise the building products certified under the overseas product certification scheme, WaterMark, that are included in the product certificates listed in Schedule 1 of this notice

Certified intended use of building method or product

The certified intended use of the product types listed in Schedule 1 of this notice are the product scope/applications of the product type categories under the WaterMark certification scheme, known as the WaterMark Schedule of Products - Tapware.

Tapware: Metallic taps, plastic taps, mixing taps, sensor (non-touch) taps, lever taps, timed flow taps, mixing taps mechanical (non-thermostatic), and tapsets in a range of nominal sizes from DN 6 to DN 50, generally for continuous operating temperatures not exceeding 80°C. Including the following tap types: bib, bidette, stop, mixing (non-thermostatic), non-touch, washing machine stop, hose, diaphragm, pillar, laboratory, hand spray, drinking fountain, self-closing, ferrule and tapware with an integral pop up-waste.

Tap accessories: Metallic taps, plastic taps, mixing taps, sensor (non-touch) taps, lever taps, timed flow taps, mixing taps mechanical (non-thermostatic), and tapsets in a range of nominal sizes from DN 6 to DN 50, generally for continuous operating temperatures not exceeding 80°C. Including the following tap accessories:

Breaching set, jumper valve assembly, o-ring, outlet, removable tap seat, replacement seat – copper alloy, replacement seat – stainless steel, spindle, tap body, tap head, tap head assembly and tapset breaching piece.

Shower: Metallic taps, plastic taps, mixing taps, sensor (non-touch) taps, lever taps, timed flow taps, mixing taps mechanical (non-thermostatic), hand spray and tapsets in a range of nominal sizes from DN 6 to DN 50, generally for continuous operating temperatures not exceeding 80°C.

Conditions and limitations of this notice

The conditions and limitations of this recognition notice are set out in Schedule 1.

1. Schedule 1

List of WaterMark certificates with recognised building products

This Schedule only includes product certificates that have an expiry date between [list relevant dates here] at the time of the notice being issued. There may be relevant product certificates related to the standard specified in the table in another recognition notice.

Standard	Standard Title	AS/NZS 3500 series link	Building Code clause
AS 3718:2021	Water supply - Tap ware	AS/NZS 3718 ref in AS/NZS 3500.1, AS 3718 superseded AS/NZS 3718	G12, B2
Conditions and limitations of recognition			
<p>The building products recognised by this notice must be installed according to the conditions and limitations specified in the product certificate for the relevant building product, as set out in Schedule 1 of this notice.</p> <p>So long as the user complies with the requirements in the product certificate (if any), the standard it is certified against (if any), and the relevant technical installation information from the manufacturer, the building products listed are deemed to comply under the relevant clause listed in this table.</p> <p>The certified intended use of the building products in this table are laid out in the WaterMark Schedule of Products – Tapware, listed in clause 5 of this notice.</p>
