#### **BRIEFING**

## **Budget 2025: Workplace Relations and Safety Review of Tagged Contingencies**

Date:	05/12/2024	Priority:	Medium
Security classification:	Budget Sensitive	Tracking number:	BRIEFING-REQ-0007105

#### **Purpose**

This briefing seeks your agreement to MBIE's proposed responses to the Minister of Finance's request to review the following tagged contingencies in the Workplace Relations and Safety portfolio for potential savings in Budget 2025:

- Supporting WorkSafe Service Realignment
- Remaining Costs of the Whakaari Prosecution

#### **Recommended action**

The Ministry of Business, Innovation and Employment (MBIE) recommends that you:

- a **Note** that on 15 November 2024 you were copied into a letter from the Minister of Finance to the Minister of Economic Development requesting that the following tagged contingencies in the Workplace Relations and Safety portfolio be reviewed for possible savings:
  - Supporting WorkSafe Service Realignment (\$7.000m currently in contingency)
  - Remaining Costs of the Whakaari Prosecution Commercial Information

Noted

b **Note** that MBIE is required to submit Budget 2025 templates to Treasury by 23 December 2025 detailing whether or not each of these contingencies presents an opportunity to return tagged funding to the Crown – drafts of which are attached to this paper as **Annex 1** 

Noted

c **Note** that WorkSafe has indicated it will not need to drawdown from the *Supporting WorkSafe* Service Realignment contingency and that that contingency expires on 1 February 2025

Noted

d **Agree** that MBIE's submission to Treasury recommend that the *Supporting WorkSafe Service Realignment* contingency be allowed to expire on 1 February 2025

Agree / Disagree

е	<b>Note</b> that WorkSafe still faces costs relating to the and that it would not be able to meet these within	
		Noted

g	<b>Sign</b> the attached letter to the Minister of Finance the Workplace Relations and Savings portfolio.	ce confirming the Budget 2025 submissions for
		Yes / No
	Hayden Fenwick Manager Health and Safety Policy Labour, Science and Enterprise 05 / 12 / 2024	Hon Brooke van Velden Minister for Workplace Relations and Safety /

#### **Budget 2025 Review of Tagged Contingencies**

- 1. On 15 November 2024, the Minister of Finance wrote to the Minister for Economic Development outlining the Budget 2025 process. All MBIE portfolio Ministers were copied in to this correspondence.
- 2. In the letter, the Minister of Finance invited specific Budget 2025 submissions relating to:
  - Savings and revenue (targeted policy savings and tagged contingencies).
  - New Spending (capital investment and economic growth initiatives).
  - Grants and funds.
- 3. This included a request that two current tagged contingencies in the Workplace Relations and Safety portfolio be reviewed for potential savings, noting that If there are no such opportunities, a reasonable justification for why the funding is still needed should be provided. The contingencies identified were:
  - Supporting WorkSafe Service Realignment; and
  - Remaining Costs of the Whakaari Prosecution.
- 4. Treasury requires that a brief template on each contingency be submitted by 23 December 2024. Drafts of these templates are attached as **Annex 1** and will be finalised and uploaded by MBIE following your feedback on the recommendations in this paper.
- 5. Additionally, a letter to the Minister of Finance outlining the recommendations in this paper has been drafted for your signature and is attached as **Annex 2**. This is to be sent on by your office to the Minister of Finance, c.c. the Minister for Economic Development (as Minister for MBIE), no later than 20 December 2024.

### **Details of the Contingencies Under Review**

#### **Purpose and Scale of the Contingencies**

- 6. Both of the identified contingencies were established by Cabinet on 4 September 2023 [CAB-23-MIN-0420] to meet anticipated costs to WorkSafe as follows:
  - The Supporting WorkSafe Service Realignment tagged contingency (\$7.000m, expiry date 1 February 2025) was established to provide a funding 'cushion' for WorkSafe should the full expected savings of its restructure process not eventuate.
  - The Remaining Costs of the Whakaari Prosecution tagged contingency expiry 1 February 2025 subsequently extended to 1 December 2026) was established to meet ongoing costs associated with WorkSafe's Whakaari prosecution and associated legal processes.

#### **Current Status of the Contingencies**

Supporting WorkSafe Service Realignment

7. WorkSafe has not drawn down from this tagged contingency since it was established and has advised us that it will not need to.

Remaining Costs of the Whakaari Prosecution

- 8. On 18 February 2024, joint-Ministers agreed an initial drawdown Commercial Information
- 9. While the prosecution is now complete, WorkSafe anticipates further costs resulting from both the Whakaari Management Limited appeals process and the coronial inquest which is expected to commence in late 2025. Given these ongoing aspects of the legal process, and the fact that WorkSafe cannot control court timelines, joint Ministers agreed as part of the October Baseline Update to extend this contingency to 1 December 2025. The exact timeline

for WorkSafe's next drawdown from this contingency is uncertain, but unlikely to be prior to April 2025.

#### **Opportunities for Savings and Recommended Response**

#### Supporting WorkSafe Service Realignment

- 10. It is the shared view of MBIE and WorkSafe that the *Supporting WorkSafe Service Realignment Contingency* is no longer required and the \$7.000m in the contingency can be released.
- 11. In other instances, the Government may decide to rescind existing contingencies. However, in this case, we are seeking your agreement to recommend to Treasury that this contingency simply be allowed to expire on 1 February 2025, with no drawdowns made. By simply allowing this contingency to expire, it will allow the tagged funding to be released to the centre in a timelier fashion than an explicit 'closing' of the contingency would allow for.
- 12. Should both you and the Minister of Finance agree to this approach, the cessation of the contingency would not progress as a formal Budget 2025 initiative, with the release of tagged funding instead being confirmed upon expiry of the contingency.

#### Remaining Costs of the Whakaari Prosecution

- 13. It is the shared view of MBIE and WorkSafe that there remains a need for the funding held in contingency for the Whakaari legal process, and that there is therefore no opportunity to return tagged funding to the Crown as part of the Budget 2025 process.
- 14. Both the appeals process and coronial inquest will drive costs for WorkSafe that it is not resourced to meet. Furthermore, the uncertainty of both the scale and timing of these costs means that this tagged contingency remains an appropriate mechanism for providing certainty to WorkSafe's ability to resource the Whakaari legal proceedings, without unduly impacting its core service delivery.
- 15. Moreover, we note that given the uncertainty about WorkSafe's remaining costs, it would be particularly challenging, and likely inefficient, for WorkSafe to reprioritise resources away from their core delivery functions to meet this unique and uncertain fiscal pressure.
- 16. On that basis, we seek your agreement to recommend to Treasury that Budget 2025 savings are not sought from this contingency.

## **Section 2: Status Update and Risks**

Section 2A: Status Update								
The answer to each question must not exceed 1-2 paragraphs								
What is the current status of the tagged contingency?	This contingency will expire on 1 February 2025. There have been no draw-downs from the contingency to date, and WorkSafe has indicated that it will not be seeking any drawdown prior to the expiry of the contingency.							
Section 2B: Risks								
The answer to each question mus	t not exceed 1-2 paragraphs							
	There are no identified risks with allowing this contingency to expire, or pre-emptively closing it.							
What is the risk of fully or partial returning the tagged contingency to the centre?	While at the point of establishment, there was a risk that delays to yielding restructure savings could place WorkSafe under financial pressure. This did not eventuate, and with current vacancies, WorkSafe has indicated that it can operate effectively within its existing 2024/25 funding envelope.							
	On this basis, there is no need for the funding in contingency and it can be allowed to simply expire on 1 February 2025.							

## b) Remaining Costs of the Whakaari Prosecution

## **Section 1: Overview**

Section 1A: Basic initiative information										
Initiative title (max 120 characters)	Rem	Remaining Costs of the Whakaari Prosecution								
Lead Minister		Minister for Workplace Relations Agency MBIE and Safety								
Initiative description (max 800 characters)	whil antic and Wor	On 4 September 2023, Cabinet established Commercial Information tagged contingency to meet outstanding costs to WorkSafe for the Whakaari prosecution – a legal proceeding of unprecedented scale, complexity, and public interest for WorkSafe New Zealand.  While Commercial Inform has yet to be drawn down from the contingency, further expenses are anticipated in relation to the appeals process and ongoing coronial inquest. For this reason, and because of the reputational and service delivery impacts of removing this funding for WorkSafe and the Health and Safety Regulatory System, this contingency is not considered to be an appropriate avenue to provide savings.
