### Health and Safety Sector Relief: Research, Teaching and Testing Laboratories

**Portfolio**                      **Workplace Relations and Safety**

On 2 December 2025, the Cabinet Expenditure and Regulatory Review Committee:

- 1        **agreed** to amend Part 18 of the Health and Safety at Work (Hazardous Substances) Regulations 2017 (the Regulations) to allow research, testing and teaching laboratories that are not involved in the production of goods for sale to manage handling (research laboratories), packaging, and storage risks arising from oxidising substances and flammable liquids and solids, through a risk management plan;
- 2        **agreed** to amend Part 18 of the Regulations so that the same regulatory requirements apply to storage that is connected to the research laboratory as to the laboratory itself;
- 3        **agreed** to amend Part 18 of the Regulations so that workers in research laboratories should not be required to be certified to handle hazardous substances because they already have higher levels of training than this certification requires;
- 4        **agreed** to amend Part 18 of the Regulations to clarify that a research laboratory manager does not need to be on site at all times, but should be available to provide oversight;
- 5        **agreed** to amend Part 18 of the Regulations to replace the requirement that research laboratory managers need to hold knowledge of all hazardous substances used in the laboratory with a requirement to have relevant knowledge to manage the safety risks of each substance and the equipment in the laboratory;
- 6        **authorised** the Minister for Workplace Relations and Safety to make minor and technical changes during drafting consistent with the policy intent of the paper under ECO-25-SUB-0120;
- 7        **authorised** the Minister for Workplace Relations and Safety to issue drafting instructions to the Parliamentary Counsel Office to give effect to the above decisions.
