

Consultation submission form

From the Ground Up – A draft strategy to unlock New Zealand’s geothermal potential

How to submit using this form

This form is used to provide feedback on the document *From the Ground Up – A draft strategy to unlock New Zealand’s geothermal potential*.

When completing this submission form, please provide reasons explaining your answers. Your feedback provides valuable information and will inform decisions about the final geothermal strategy.

You can submit this form by 5pm, 12 September 2025 by:

- Emailing to resourcesfeedback@mbie.govt.nz with the subject line ‘**Submission on a draft geothermal strategy**’ or
- Posting to:
Submission on a draft geothermal strategy
Resource Policy
Ministry of Business, Innovation and Employment
PO Box 1473
Wellington 6140

Your feedback will contribute to further development of a geothermal strategy for New Zealand. It will also become official information, which means it may be requested under the Official Information Act 1982 (OIA).

The OIA specifies that information is to be made available upon request unless there are sufficient grounds for withholding it. If we receive a request, we cannot guarantee that feedback you provide us will not be made public. Any decision to withhold information requested under the OIA is reviewable by the Ombudsman.

Submitter information

The Ministry of Business, Innovation and Employment (MBIE) would appreciate if you would provide some information about yourself. If you choose to provide information in the section below, it will be used to help MBIE understand how different groups view the draft geothermal strategy. Any information you provide will be stored securely.

A. About you

Name: Josh Wineera

Email address: josh@latentservice.com

B. Are you happy for MBIE to contact you if we have questions about your submission?

Yes

No

C. Are you making this submission on behalf of a business or organisation?

Yes

No

If yes, please tell us the title of your company/organisation:

Latent Services Limited

D. Privacy information

The Privacy Act 2020 applies to submissions. Please check the box if you do not wish your name or other personal information to be included in any information about submissions that MBIE may publish.

MBIE may upload submissions, or a summary of submissions, received to MBIE's website at www.mbie.govt.nz. If you do not want your submission or a summary of your submission to be placed on our website, please check the box and type an explanation below:

I do not want my submission placed on MBIE's website because... [insert reasoning here]

E. Confidential information

- I would like my submission (or identifiable parts of my submission) to be kept confidential and have stated my reasons and ground under section 9 of the Official Information Act that I believe apply, for consideration by MBIE.

If you have checked this box, please tell us what parts of your submission are to be kept confidential.

From the Ground Up – A draft strategy to unlock New Zealand’s geothermal potential

The Government is developing a geothermal strategy for New Zealand to provide a focused pathway to geothermal leadership and growth and unlock the potential of our geothermal resources across a broad range of applications.

New Zealand’s geographical location has given us a unique geothermal advantage, and New Zealand has been a global leader in geothermal development since the late 1950s. Geothermal contributes nearly one-fifth of our annual electricity generation, is a strong tourism attraction, and geothermal heat and steam are utilised both directly and indirectly in industrial, commercial and residential applications.

However, despite our world-class resource, geothermal development faces some barriers, including high upfront drilling costs, fragmented access to data, complex and dated regulatory settings and the scale of the sector. New technologies, such as supercritical geothermal, are also on the horizon. In order to drive the energy resilience, regional development, economic growth and climate leadership, deliberate and coordinated action is required.

The draft strategy sets out a vision for New Zealand to be a global leader in sustainable geothermal development. Three interconnected strategic outcomes, centred around being a world-leader in geothermal innovation, accelerating energy resilience, and strengthening regional economies and te Ōhanga Māori, have been identified to guide action and focus. Five action plan goals have been identified to guide the Government’s approach, underpinned by a draft action plan. The draft strategy also includes an energy-focused goal to double the use of geothermal energy by 2040.

We are seeking feedback on the draft strategy, particularly whether the proposed direction, ambition and outcomes, and accompanying action plan, capture the necessary government intervention and priorities. We are also interested in views about how the wider geothermal sector can contribute to unlocking our geothermal potential.

Please see the draft geothermal strategy for more information, available on our website:

<https://www.mbie.govt.nz/have-your-say/consultation-on-a-draft-geothermal-strategy-for-new-zealand>

Questions for the consultation

1. Are the three strategic outcomes of the strategy, centred around **world-leading geothermal innovation, accelerating energy resilience and strengthening regional economies and te Ōhanga Māori**, suitable, or is there more we need to consider?

No. It could be stronger on the global stage and have an outcome to lead a collective of geocountries.

2. Do the five overarching **action plan goals capture the areas that are most important for achieving** the vision, strategic outcomes and energy goal?

No, as above if we seek to lead globally, we should create an organisation that builds such a global collective. MFAT/NZTE/Iwi- landowners.

3. Does the proposed action plan correctly capture the necessary **government interventions and priorities**?

Yes

4. Is the **role for the sector** clear? How can the wider geothermal sector play a role (e.g. are there specific actions that the sector could own)?

No. Global connections through forums that can showcase NZs innovations and advancements should be added. As previously commented a stand-alone MBIE/NZTE/iwi organisation should be created for this.

5. Does the strategy and proposed action plan create the right settings to **enable tāngata whenua to realise their aspirations** for geothermal resources in their rohe?

NA, am sure others will provide comments about this.

6. Are there **opportunities** for our geothermal sector that we haven't considered?

Global expansion. Organising the equivalent of OPEC, but for geothermal sector, with NZ leading and partnering with the iwi and hapu who are the geothermal peoples for NZ ie on the Taupo Volcanic Zone.

7. Are there **challenges** for our geothermal sector that we haven't considered?

Yes. The Geothermal System and categories in the Management Groups (page 10) are outdated and not fit for this strategy and forward-looking. The references provided and a search of documents in both the Waikato and Bay of Plenty Regional Councils shows that the basis for these were the 1991 RMA Act, however the genesis was in the 1970's. That's nearly 60 years ago for the inception and well over 30 years since referred to and carried forward by various councils. A focus on further exploration, technical developments and high-tech science, combined with where the sector is today (such as Tauhara North No.2 and Rotokawa) calls for a revision and possible recategorising of the groups. Consultation with the sector on this should be a priority.

8. Are there **any other things** that the strategy should include or exclude?

NA

Thank you

Thanks for your feedback, we really appreciate your insight. It helps us establish a long-term strategic approach to unlock the potential of our geothermal resources in a sustainable manner.

To help us continue to develop a geothermal strategy for New Zealand, we would appreciate any additional suggestions or comments you may have.

Please leave your feedback here:

Thank you for the opportunity to provide feedback. It is great to see a strategy like this put together. Look forward to its formal release and I would like to attend that if possible.
