Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Strongly disagree

Why?

Fossil fuels are outdated. We have the technology to create a better energy source.

What is your vision for the minerals and petroleum sector in New Zealand?

Give them a 30 years update. It's not the '80s anymore. Coal and kerosene aren't going to bring us anywhere but a very dark pit. Wake up.

How can New Zealand sustainably derive value from its petroleum and minerals resources?

If petroleum and minerals explorations are stopped (in which i'm Including sonic blasting and intrusive manners to individuate an oil deposit), the marine Mammals will have a refuge to get to, which could improve the sightseeing business in the first place, and also tourism in general, as New Zealand forests are one of a kind in the globe.

Objectives for the minerals and petroleum sector

Objective for a sector that: "Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy".

Strongly agree

Why?

Objective for a sector that: "Is productive and innovative".

Strongly agree

Why?

Objective for a sector that: "Is effectively regulated".

Strongly agree

Why?

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Get a grip of reality. We are at a time in history when we have both the knowledge and the technology to do BETTER than what has been done until now. Better and more efficient transport. No emissions. A clean environment to grow our kids into.

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

Principle: Māori cultural interests are understood and respected.

Strongly agree

Why?

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Strongly agree

Why?

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Strongly agree

Why?

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Disagree

Why?

They already took their toll on this land. Enough greed.

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Strongly disagree

Why?

Enough.

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both new and for future generations.

Strongly disagree

Why?

The crown shouldn't have any right in this land. They have their own fuck ups to worry about.

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Strongly agree

Why?

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Neither agree nor disagree

Why?

If you introduce too many safety rules people get bored. The average worker gets bored of too many rules. Common sense needs to be stimulated and more inspectors trained.

Principle: Strive to implement industry best practice in operations.

Strongly agree

Why?

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Neither agree nor disagree

Why?

The current extraction methods should actually come to a stop as it is not sustainable. There is enough minerals been extracted that go to landfill (eg batteries of many kinds) that could be recycled to get better energy independente.

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Strongly agree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Strongly disagree

Why?

Drop it altogether. No mining anymore. Nada. Neon. No. Bad boy.

What future actions would you like us to consider under this Action Area?

Action Area: Securing affordable resources to meet our minerals and energy needs

Strongly agree

Why?

Solar wind hydro. NZ has all of that and hectares of superfluous pasture.

What future actions would you like us to consider under this Action Area?

Action Area: Improving Treaty partnership

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly disagree

Why?

As above. Stop wasting money on an old industry.

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Strongly agree

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

If you wish to, attach a document to this submission.

Use and release of information

We intend to upload submissions to our website at www.mbie.govt.nz. Can we include your submission on the website?

Yes

Can we include your name?

Yes

Can we include your email address?

No

Can we include your business name or organisation?

No

Can we include your position title?

No

Can we include the group you most identify with (if submitting as an individual)?

No

Can we include the group your submission represents (if submitting on behalf of a group or organisation)?

If there are any other parts to your submission that you do not want public on the website please note them below:
