Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Disagree

Why?

This sentence seems to have a contradiction at its core

What is your vision for the minerals and petroleum sector in New Zealand?

The ideal is to leave it all in the ground

How can New Zealand sustainably derive value from its petroleum and minerals resources?

If there is a way to extract, use and then recapture and reuse or bury?

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Neither agree nor disagree

Why?

How can the extraction and use of these be sustainable? Need energy to extract and then the use of it is the issue.

Objective for a sector that: “Is productive and innovative”.

Agree

Why?

Innovative: would have to solve the seemingly impossible equation stated above

Objective for a sector that: “Is effectively regulated”.

Agree

Why?

Needs oversight from state/people

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

Well, dismantle and focus on sun, wind, waves energy...

Why?

Agree

Why?

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Strongly agree

Why?

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Why?

Not if against urgent action - A law shall overturn this

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Agree

Why?

Agree

Why?

Are there any other principles you would like us to consider in the strategy?
