Vision

Do you agree or disagree with the overall vision for the minerals and petroleum sector in New Zealand?

Neither agree nor disagree

Why?

I would prefer less extraction of petroleum & a greater focus on 'renewable energy'

What is your vision for the minerals and petroleum sector in New Zealand?

I would prefer less extraction of petroleum & a greater focus on 'renewable energy'

How can New Zealand sustainably derive value from its petroleum and minerals resources?

I'm not sure, though, my preference is 'conservation' of resources

Objectives for the minerals and petroleum sector

Objective for a sector that: “Responsibly delivers value for New Zealand (a) Supporting a productive, sustainable and inclusive economy (b) Supporting New Zealand's transition to a carbon neutral economy”.

Agree

Why?

A responsible approach, moving towards a 'carbon neutral' economy

Objective for a sector that: “Is productive and innovative”.

Neither agree nor disagree

Why?

As long as it is productive & innovative with moving towards a 'carbon neutral' economy

Objective for a sector that: “Is effectively regulated”.

Strongly agree

Why?

Accountability & responsibility are paramount

Are there any other objectives for the minerals and petroleum sector that you would like us to consider in the strategy?

My preference is to 'keep it in the ground'

Guiding principles

Principle: The environment, ecosystems, and biodiversity are respected now and in the long term.

Strongly agree

Why?

Because ultimately, they are more important than us...

Principle: Māori cultural interests are understood and respected.

Agree

Why?

Māori cultural interests are important, also the cultural interests of other peoples

Principle: Support the transition to a carbon neutral economy by 2050.

Strongly agree

Why?

We (people) are causing too much harm to the planet

Principle: The impact on people, communities and regions are managed in a just and inclusive way.

Agree

Why?

A balance between the needs of people & the requirements to protect our environment

Principle: Support a circular economy by meeting resource needs through resource efficiency, recycling and reuse.

Strongly agree

Why?

As much as possible

Principle: Actions taken within the mineral and petroleum sector should align with the strategic direction of other related sectors and Government strategies.

Neither agree nor disagree

Why?

This depends who is 'in power'

Do you agree or disagree with each of the following principles for the Crown?

Principle: The Crown honours its duty towards Māori as a Treaty partner, adheres to the Principles of the Treaty of Waitangi and its duty to meet settlement commitments.

Agree

Why?

It is a commitment which has been made...

Principle: The Crown receives a fair financial return for its minerals and petroleum.

Neither agree nor disagree

Why?

Until I see the figures, I cannot comment - though, no resource ought to be taken from our land or sea, without royalties being paid

Principle: The Crown regulates in a way that is fair, transparent, reasonable and proportionate.

Neither agree nor disagree

Why?

As long as it is 'fair, transparent & reasonable'

Principle: The Crown honours the rights of current permit holders to continue production or exploration activities under existing permits.

Neither agree nor disagree

Why?

Depends on the terms

Principle: The Crown makes policy decisions based on the best evidence, and accounting for the foreseeable need for minerals and petroleum, both now and for future generations.

Neither agree nor disagree

Why?

Depends...

Principle: The Crown proactively engages and consults with relevant stakeholders and decisions are communicated in a clear and transparent way.

Agree

Why?

Thats fair

Do you agree or disagree with each of the following principles for Industry?

Principle: Pursue continuous improvements in health and safety.

Agree

Why?

Of course!

Principle: Strive to implement industry best practice in operations.

Agree

Why?

Of course!

Principle: Seek innovative ways to improve the resource efficiency of extraction operations; and minimise the negative impacts of these operations.

Neither agree nor disagree

Why?

Innovation, yes, conservation is preferable...

Principle: Engage with stakeholders and implement management systems to understand and manage impacts, and realise opportunities for redress where needed.

Agree

Why?

Are there any other principles you would like us to consider in the strategy?

Action areas intro

Action Area: Modernising the Crown Minerals Act

Agree

Why?

There must be royalties paid for resources, in addition, environmental restoration is essential

What future actions would you like us to consider under this Action Area?

Greater focus on conservation & restoration

Action Area: Securing affordable resources to meet our minerals and energy needs

Agree

Why?

With care...

What future actions would you like us to consider under this Action Area?

Greater focus on conservation & restoration

Action Area: Improving Treaty partnership

Neither agree nor disagree

Why?

What future actions would you like us to consider under this Action Area?

Action Area: Improving stakeholder and community engagement

Strongly agree

Why?

We are all involved with what happens to our land - especially, if it is Crown Land

What future actions would you like us to consider under this Action Area?

Action Area: Improving industry compliance

Strongly agree

Why?

If there is a lack of compliance, then licenses will be revoked!

What future actions would you like us to consider under this Action Area?

Action Area: Research and investment in better mining and resource use

Agree

Why?

What future actions would you like us to consider under this Action Area?

Are there any other action areas you would like us to consider as part of advancing this Strategy?

Other

Are there any other comments you would like to make about the “Minerals and Petroleum Strategy for Aotearoa New Zealand: 2019-2029”?

As previously stated, my strategies are for conservation, with a focus on renewable energy technologies
